

REACH Declaration

ACCES I/O Products Inc. is committed to providing our customers with environmentally friendly products compliant with the European Union regarding the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) regulation. The REACH directive addresses the production and use of chemical substances, and their potential impacts on both human health and the environment.

As far as we know, our products do not currently contain any of the 155 SVHC's from the 2014-06-16 Candidate list above a concentration level of .1% of the weight of the product. However, please understand that ACCES I/O is not performing any chemical analysis on its product to testify REACH compliance.

The main aims of REACH are to ensure a high level of protection of human health and the environment from the risks that can be posed by chemicals, the promotion of alternative test methods, and the free circulation of substances on the internal market and enhancing competitiveness and innovation. ACCES I/O is confident that all our products reach the aim of the REACH regulation.
